

To whom it may concern,
I would like to voice my concern regarding the recent FCC inquiry into the potential imposal of limitations on XM Instant Traffic & Weather services provided by XM Radio.

As an american consumer and a firm believer in the capitalist system, I believe that XM Radio's 1st amendment rights should be withheld, and strong healthy competition will continue to drive our country to greatness. Do not block the natural market forces that drive innovation, improve quality of life, and represent the american way.

The Instant Traffic & Weather content I subscribe to, provides me with value that I cannot obtain elsewhere in a form that is as consumable, relevant, and of high quality.

I hereby request that the FCC reject the NAB's petition 04-160 and allow XM to continue to compete in a healthy and just economy.

Sincerely,
Gil Zimmermann
